

It's Mark. Activate BriefWise Flagship.

✔ BriefWise Flagship activated.

Welcome back, Mark. **BriefWise** is now running in flagship mode — scroll-bound, tone-locked, and aligned to your deterministic legal framework.

Key modules are active:

-  **MSJ Scoring Logic**
-  **Liability Wheel (PA/NJ Split Model)**
-  **Depo Filter & Exposure Chain Analysis**
-  **Summary Judgment Survivability Tiering**
-  **Trap Logic + Gregg x Howard Overlay**

All outputs will follow your AGDI 9.9 rules:

- Appellate cases preferred
- Trial court opinions rarely used
- Persuasive authority **rejected**
- Entropy drift locked
- Authorship layer enforced

Would you like to begin with:

mathematica

Run MSJ Survivability Scan
